7:00 - 8:00 PM

**Presented by:
Fred Boyer**

Hoosier Valley Railroad Museum Operation History

Remember the sound of those railroad train whistles and the click clack of the wheels on the track?

The H.V.R.M., founded 20 years ago, is preserving and restoring so much of this history for our children.

Come enjoy the **historical slide show** starting with a history of the museum, then the **moving of a caboose** from Woodbridge, IN to North Judson. See **what is going on at the museum**. The slides will conclude with pictures of the **dismantling, moving and restoring of the large railroad switching building** called Grasselli Tower. It was moved from East Chicago, IN to North Judson, IN.

**Your questions
are
encouraged.**

**Reservation
Deadline:
March 8**
